**July 13, 2009 (Paris, France)** — Cassiopae SAS, a leading provider of global asset finance software, today announced that it has expanded its collaboration with the Finance Services Global Business Unit of Capgemini, one of the world's foremost providers of consulting, technology, outsourcing, and local professional services. Since 2007, the two companies have worked together on implementations of Cassiopae's loan and leasing software. Recently, Capgemini signed on as one of Cassiopae's outsourced, off-shore technology resources as well.

"Partnering with Capgemini provides our clients with access to a large, global network of local professional resources," says Franck Jacovlev, EMEA Asset Finance Market Director for Cassiopae. "Because we have a history of working together, Capgemini consultants are well-versed in how to configure Cassiopae software to meet customer requirements."

Collaboration on a project for one of the largest financial services groups in the euro-zone includes the phased roll out of the Cassiopae solution in 22 countries. The two companies are also working together on a multi-site implementation for one of the leading international specialist property banks in Germany.

According to Christophe Peltier, Skill Group Manager for banking solutions at Capgemini, "Cassiopae is emerging as the vendor with the most flexible, innovative software for managing all types of leases and loans using a single system, worldwide. Such a highly-configurable system enables us to

lower implementation risk for our clients."

Capgemini's technology outsourcing gives Cassiopae additional development options. "Cassiopae is a vibrant, growing software company," says Emmanuel Gillet, president of Cassiopae. "We will continue to find and nurture partnerships that enable us to improve solutions for clients. Capgemini is helping us do this globally."

Cassiopae solutions support hundreds of billions of Euros and millions of assets in live lease and loan portfolios for more than 55 customer sites in 25 countries. A multi-lingual, multi-currency solution, Cassiopae's commercial lending, leasing, and asset management software leverages industry-standard technology including Web 2.0 Rich Internet Application technology, Oracle®, Unix®, Linux®, and Windows® environments.
